# **Interstate 10 Construction Update**

**Interchange Bridge Work Progress Continues** 

(Listen to an audio report of upcoming work)

## **Upcoming Restrictions**

This week, construction progress will continue with restrictions as part of the Interstate 10 improvement project. Drivers should watch for closures at the I-10 interchanges of Bullard Avenue, Dysart Road and 107th Avenue. Construction crews will continue westbound bridge work at these interchanges for the next two to three weeks in order to accommodate future lanes within the median of I-10. Drivers should plan for closures on local streets under I-10 and use adjacent interchanges as bridge construction continues.

#### **Project Information**

The I-10 improvement project will provide additional lanes between Verrado Way and Loop 101 (Agua Fria Freeway). The freeway expansion includes widening into the median and adding new outside lanes to improve east/west traffic flow in the West Valley.

This project is one of the first elements of the Regional Transportation Plan for Maricopa County and is funded through a voter-approved sales tax to improve and construct new transportation options throughout the Valley during the next 20 years. More information on the Regional Transportation Plan is available at www.azdot.gov/ValleyFreeways.

Here's an overview of scheduled restrictions on Interstate 10:
